

Mohd Tayyab

QA Engineer — New Delhi, India

mohdtayyabh39@gmail.com — (+91) 8595477421 — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

SUMMARY

QA Engineer with 2+ years of experience in testing web, mobile, console, and VR applications across production environments. Skilled in **functional, regression, API, and cross-platform testing** with hands-on experience in **Selenium/TestNG, Postman, SQL validation, automation frameworks, and defect triaging**. Proven ability to identify critical production issues, improve regression efficiency, and collaborate with developers to deliver stable releases.

EXPERIENCE

Quality Assurance Engineer

April 2025 – Present

Keywords Studios — Gurugram, India

- Managed **end-to-end QA validation** across Dev, QA, Staging, Platform, and Production environments for web, mobile, console, and VR applications.
- Led testing for multiple **Admin Tool modules**, ensuring responsive behavior across macOS, Android, and iOS devices with varying screen resolutions.
- Developed and maintained a **Selenium + TestNG automation framework** in Java, reducing repetitive manual regression effort and improving test coverage.
- Validated **API workflows and backend integrations** using Postman, identifying data inconsistencies before production deployment.
- Identified and triaged **50+ critical defects**, performed root cause analysis, and collaborated with developers to resolve release-blocking issues and support client-facing escalations.
- Leveraged **Sentry, Apache Superset, and BI tracking tools** to investigate production incidents and validate analytics accuracy.
- Validated **LTR/RTL layouts and cross-locale rendering** across Android and iOS devices, ensuring consistent UI behavior across regional configurations.
- Mentored QA interns on **defect reporting standards** and test execution workflows.

QA Tester

March 2024 – February 2025

Updoer Technology — Noida, India

- Executed **functional, regression, UAT, API, and database testing** for B2B, B2C, and CRM applications.
- Consolidated **500+ test cases into 250 reusable scenarios**, improving maintainability and execution efficiency.
- Conducted **cross-browser and cross-device testing** and supported defect triaging and release validation.
- Collaborated with developers and product teams during **Agile/Scrum ceremonies** using JIRA and ClickUp.

PROJECTS

Hybrid QA Automation Framework

- Built scalable **Selenium + TestNG automation framework** using Java and Page Object Model (POM).
- Automated regression scenarios and improved test execution efficiency.
- Integrated reusable utilities for reporting, assertions, and test data handling to improve automation maintainability and debugging efficiency.

TECHNICAL SKILLS

Automation & Testing: Selenium, TestNG, RestAssured, Postman, JMeter, Appium, Playwright

Testing Types: Functional, Regression, Integration, System, UAT, Exploratory

Backend & Database: SQL, MySQL, API Testing, DB Validation

CI/CD & Tools: Jenkins, GitHub Actions, JIRA, TestRail, Qase, Git, Sentry

Programming: Java, Python

QA Practices: STLC, SDLC, Bug Lifecycle, BDD, POM

EDUCATION

B.Tech in Computer Science

2021 – 2025

Dr. A.P.J. Abdul Kalam Technical University
